Section 1

ct and Company Identification

Page E1 of E2

P.O. Bax 901 Fort Atkinson, WI 63538-0901 **CHEMTREC 24 Hour Emergency** Phone Number (800) 424-9300 For laboratory use only. Not for drug food or household use

Product

SODIUM HYDROXIDE, 50% SOLUTION

Synanyms Sodium Hydroxide, Water Solution

Section 2

Hazards Identification

Signal word: DANGER

Pictograms: GHS05

Target organis: Respiratory tract, gestrointestinal tract, eyes, skin

GHS Classification: Skin corrosion (Category 1A)

GH5 Label information: Hazard statement: H314 Causes severe skin burns and eye damage Precautionary statement:

P260 Do not breathe mist/vapours/sprsy.
P264 Wash hands thoroughly after handling.

P280: Wear protective gloves/protective clothing/eye protection/face protection. P305+P351+P338: IF IN EYES Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P301+P330+P331: IF SWALLOWED: Rinse mouth. Do NOT induce vomilling P303+P361+P353: IF ON SKIN (or heir): Take off immediately all contaminated clothing Rinse skin with water/shower.
P304+P340: IF INHALED. Remove person to fresh air and keep comfortable for

breathing.
P310: Immediately call a POISON CENTER or doctor

P383: Wash contaminated clothing before reuse

P405 Store locked up

P501: Dispose of contents/container to a licensed chemical disposal agency in accordance with local/regional/nutional regulations

Ca Prop 65. This product does not contain any chemicals known to the State of California to cause cancer or reproductive toxicity

Section 3	Composition / Information on Ingredients					
Chemical Name	CAS #	%	EINECS			
Water	7732-18-5	50%	231-791-2			
Sodium hydroxide	1310-73-2	50%	215-185-5			

Section 4 First Aid Measures

INGESTION: MAY BE FATAL IF SWALLOWED. Call physician or Polson Control Center immediately. Induce vomiting only if advised by appropriate medical personnel. Never give anything by mouth to an unconscious person

INHALATION: Remove to fresh air. If not breathing give artificial respiration. If breathing is difficult, give expger. Get medical attention.

EYE CONTACT: CAUSES SEVERE DAMAGE. Check for and remove contact lenses. Flush thoroughly with water for at least 15 minutes, lifting upper and kneer eyelids occasionally. Get immediate medical attention

SKIN ABSORPTION: CAUSES SEVERE BURNS. Remove contaminated clothing. Flush thoroughly with mild soap and water. If irritation occurs, get medical attention.

Section 5 Fire Fighting Measures

Suitable Extinguishing Media: Dry chemical, water spray, alcohol foam. Can react with carbon dioxide to form sodium carbonate

Protective Actions for Fire-lighters: In fire conditions, wear a NiOSH/MSHA-approved self-contained breathing apparatus and full protective gear. Use water spray to keep fire-exposed containers cool

Specific Hazards: In fire conditions, water may evaporate from this solution which may cause hazardous decomposition products to be formed as dust or fume. Contact with metals can generate hydrogen gas

Accidental Rolesse Measures

Personal Precautions: Evacuate personnel to safe area. Use proper personal protective equipment as indicated in Section 8. Provide adequate ventilation

Environmental Precautions: Avoid runoff into storm sewers and ditches which lead to waterways

Containment and Cleanup: Absorb with inert dry material, sweep or vacuum up and place in a suitable container for proper disposal. Wash spill area with soap and water

Precautions for Safe Handling: Read label on container before using. Do not wear contact lenses when working with chemicals. Keep out of reach of children. Avoid contact with eyes, skin and clothing. Do not inhale vapors, spray or mist. Use with adequate ventilation, Avoid Ingestion, Wash thoroughly after handling. Remove and wash

Conditions for Safe Storage: Store in a cool, wall-ventilated area away from incompatible substances.

Section 8 Exposure Controls (Personal Protection						
Exposure Limits:	Chemical Name	ACGIH (TLV)	OSHA (PEL)	NIOSH (REL)		
Exposure cinque.	Sodium hydroxide	STEL C 2 mg/m ³	TWA: 2 mg/m ³	STEL C 2 mg/m ²		

Engineering controls: Feclibles storing or utilizing this material should be equipped with an eyewash facility and a safety shower and fire extinguishing material. Personnel should wear safety glasses, goggles, or faceshield, lab cost or apron, appropriate protective gloves. Use adequate ventilation to keep airborne concentrations low

Respiratory protection: None should be needed in normal laboratory handling at room temperatures, if misty conditions prevail, work in furne hood or wear a NIOSHAMSHA-

Section 9 Physical & Chemical Properties

Appearance: Clear, colorless liquid Orlor: No odor Odor threshold: Not applicable.

pH: Data not available.

Melting / Freezing point: ~ D°C (~ 32°F) [water]

Bolling point: ~ 100°C (212°F) [water]

Flash point: Not flammable

Evaporation rate (Water = 1): < 1 Evaporation (value 1).

Finammability (solid/gas): Not applicable.

Explosion limits: Lower / Upper: Not applicable.

Vapor pressure (mm Hg): 14 [water] Vapor density (Air = 1): 0.7 [water] Relative density (Specific gravity): 1.0 [water] Solubility(les): Complete in water

Partition coefficient: (n-octanol / water): Not applicable Auto-ignition temperature: Not applicable Decomposition temperature: Data not available Viscosity: Data not available.

STERRICAL CONTRACTOR OF THE PROPERTY OF

Molecular formula: Mixture Molecular weight: Mixture

Section 10 Stability & Reactivity

Chemical stability: Stable Hazardous polymerization; Will not occur

Conditions to avoid: Can react with carbon dioxide to form sodium carbonate

Incompatible materials: Metals, acids, organic compounds, organic nitro compounds

Hazardous decomposition products: Sodium oxide. Reacts with metals to form flammable and explosive hydrogen gas.

Section 11 Toxicological information

Acute toxicity: Data not available

Skin correnion/irritation: Skin - rabbit - Causes severe burns - 24 h [Sodium hydroxide] Serious eye damaga/irritation: Eyes - rabbit - Severe eye irritation - 24 h [Sodium hydroxide]

Respiratory or skin semiltization: Data not available Germ cell mutagenicity: Data not available

Carcinogenity: Data not available

Carcinogenity: Data not evaluable

NTP: No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

IARC: No component of this product present at levels greater than or equal to 0.1% is identified as probable; possible or confirmed human carcinogen by IARC OSHA: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA.

Reproductive toxicity: Data not available.

STOT-eingle exposure: Data not available STOT-repeated exposure: Data not available

Aspiration hazard: Data not available

Potential health effects: Inhalation: May be harmful if Inhaled. Material is extremely destructive to the tissue of the mucous membranes and upper respiratory tract.

Ingestion. May be harmful if swallowed. Skin: May be harmful if absorbed through skin. Causes skin burns

Eves Causes ave burns Causes severe eye burns

Exysts. Causes age units. Causes severe age buttle.

Signs and symptoms of exposure: Spasm, inflammation and edema of the bronchi, pneumonitis, pulmonary edema, burning sensation, cough, wheazing, taryngitis, shortness of breath, headache, nausea, vomiting. Material is extremely destructive to itssue of the mucous membranes. and upper respiration; Excellent, and skin.

Additional information: RTECS 8: WB4900000 [Sodium hydroxide]

Section 12: Ecological information.

Toxicity to fish: LC50 - Gambusia affinis (Mosquito fish) - 125 mg/l - 96 h (Sodium hydroxide)

Toxicity to daphnia and other aquetic invertabrates: Immobilization EC50 - Daphnia - 40 38 mg/l - 48 h [Sodium hydroxide]

Toxicity to algae: No data available

Bloaccumulative potential: No data available Peralstence and degradability: No data available Mobility in soil: No data available PBT and vPvB assessment: No data available

Other adverse effects: An environmental hazard cannot be excluded in the event of unprofessional handling or disposal

Section 13 Disposal Considerations

These disposal guidelines are intended for the disposal of catalog-size quantities only. Federal regulations may apply to empty container. State and/or local regulations may be different. Dispose of in accordance with all local, state and federal regulations or contract with a licensed chemical disposal agency.

Section 14 Transport Information (US BOT / CANADA TDG)

Shipping name: Sodium hydroxide solution UN/NA number: UN1824

Reportable Quantity: 1,000 lbs (454 kg) Marine pollutant: No Hazard class: 8 Packing group: II

Exceptions: Limited quantity equal to or less than 1 L 2016 ERG Gulde # 154

Section 15 Regulatory information A chemical is considered to be listed if the CAS number for the unhydrous form is on the inventory list TSCA CERLCA (RQ) RCRA code Component DSL NDSL Listed 1,000 fbs (454 kg) D002 Listed Not listed Sodium hydroxide

Section 16 Other Information

The information contained herein is furnished without warranty of any kind. Employers should use this information boly as a supplement to other information gathered by them and must make independent distances or suitability and completeness of information from all sources to assure proper use of these materials and the satisty and health of employers.
